

48V lead-acid battery cabinet for metropolitan area network use

Overview

This easy to install cabinet adds one or two 48 Volt battery strings and up to a 200AH battery. Its lightweight aluminum construction is ideal for rooftop application and easy to. The Vertiv™ Liebert® PSI5 line interactive UPS family provides network grade uninterruptible power protection with pure sinewave output power and automatic voltage regulation ensuring availability of critical systems and information. Reliable and efficient power protection for servers, network. The Battery Side-Car allows carriers to add 2, 4, or up to 8 hours of runtime in the same pad footprint. Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. We. 48V battery energy storage systems are a key component of modern energy solutions, especially vital in the telecom industry, renewable energy systems and emergency power security.
