

## Distribution Box cp

### Overview

The CP Power-D-Box® is a modular power distribution system. Thanks to reversible mounting flanges, it can easily and quickly be installed in 19" or ETSI cabinets. The compact 2RU enclosure can accommodate the system components ESX300-S, RS110, RCI11 or EAI300, depending on the. These heavy duty boxes are fitted with a variety of power outlets, and are fully protected by individual circuit breakers. All our machines are supported by a network. The consolidation point is the transition point from a permanent infrastructure for power, signal and data to the workstations or outlet network. Their range of energy management products can help organisations and individuals control their energy usage for heating, lighting and ventilation, saving money. Discover our range of Distribution Boxes at CP Electronics for all your control device needs. With various sizes and configurations available, you can easily find the perfect. F-Gas (Fluorinated gases) government regulations specify that a limited number of products can be sold in the European Union that contain F-gases which have been linked to climate change.
