

Distribution box argb

Overview

The Axiom Dual Loop ARGB D5 Reservoir Combo Distribution plate is a pump and reservoir combination designed to fit into water-cooled builds which have a 360mm, 420mm radiator or larger. It has maximum versatility with enough inlet and outlet ports for many different loop routes. RGB 1 to 11 way hub main function: Increase the number of RGB (12v 4PIN) ports on the motherboard to 11, to realize the centralized control of RGB lighting devices. Note: This RGB Hub interface is 12V 4pin, please check the interface before use. Only EK and EK confirmed quality products. The XPG PRIME BOX grants you ultimate control of your device, from PWM fans to RGB accessories. You can personalize the lighting for multiple RGB components all at the same time using XPG PRIME ecosystem management software. With its embedded magnets and sleek low-profile design, installation is a breeze. COUGAR CORE BOX V3 controller is the best assistant for PC management. Besides, it's also the cable management center, which is. Manage every aspect of your fans functionality using the GameMax V4.
