

## Distribution box zf

### Overview

ZF pump distribution gearboxes for driving different hydraulic pumps simultaneously are ideally suited for installation in large hydraulic excavators. ZF offers more than 50 years of experience in drive gears, already renowned under the brand names. ZF makes passenger transport more attractive and economic - for example, bus transmissions that not only reduce exhaust emissions. Comfort is not just pure luxury in buses. As is the case with all workstations, the driver's cabin in commercial vehicles must enable fatigue-free and healthy work. ZF stands for Zahnrad Fabrik, and the full name of the company is ZF Friedrichshafen AG. The focus of development and production activities is on. ZF's newest Redulus 4F gearbox design has reached a next level: flexible, compact, extended load capacity and advanced serviceability. Redulus4F - Learn more about the product.
