

Dry Eye and Corneal Topography Analyzer

Overview

It combines multiple diagnostic modalities into one device, streamlining the assessment of corneal surface conditions, contact lens fitting, and dry eye management. A valuable tool to facilitate communication with comprehensive and intuitive graphic representations. The OCULUS Keratograph ® 5M is an advanced corneal topographer with a built-in real keratometer and a color camera optimized for external imaging. Unique features include examining the meibomian glands, non-invasive tear film break-up time and the tear meniscus height measurement and evaluating the. The Topcon TERA combines advanced Placido-based corneal topography with a comprehensive Dry Eye Suite - designed to support confident evaluation and management of ocular surface disease. Powered by robotic automation and high-resolution imaging, TERA standardizes capture, streamlines workflow, and delivers clear, actionable guidance for treatment and follow-up. Its user-friendly design enhances.

Article Content

ZEISS ATLAS 500

A state-of-the-art, multi-modality solution for the anterior eye segment, ATLAS® 500 from ZEISS offers corneal topography. Additionally, the system

CA-800 Corneal Analyzer

Easy-to-Use Corneal Topography and Dry Eye Workstation. Key Features
COMPREHENSIVE – Meibomian gland imaging, tear meniscus analysis,

Topography/Biometry

Topcon KR-1W Wavefront Analyzer The 5-in-1 KR-1W Wavefront Analyzer boasts the combined technologies of wavefront aberration, corneal topography and

OS1000 Corneal Topography with Dry Eye Platform

New OS1000 Two-in-One diagnostic system for corneal topography and dry eye assessment. Includes NIBUT, 3D meibography, tear film and blink analysis. Ideal

Systemic Isotretinoin-Associated Salzmann-Like Nodular

The purpose of this research was to analyze changes in corneal innervation and its association with tear film integrity in patients treated with oral isotretinoin.

TERA Dry Eye Imager™ | Topcon Healthcare

The TERA Dry Eye Imager is a multimodal platform purpose-built to detect, grade, and manage dry eye disease. Powered by robotic automation and high-resolution

TERA from Topcon Healthcare | Dry Eye Imager

The Topcon TERA combines advanced Placido-based corneal topography with a comprehensive Dry Eye Suite – designed to support confident evaluation and management of ocular surface disease.

Visionix VX 120+ Dry Eye

Visionix VX 120+ Dry Eye Multimodal platform, screening and monitoring of the dry eye syndrome (DES)

Topographer | Topcon Healthcare

The CA-800 Corneal Analyzer is an easy-to-use, comprehensive corneal topography solution allowing for the complete evaluation of the anterior surface and eyelids.

DEA520 Corneal Topographer

DEA520 has a wealth of measurement points, three light sources, and a comprehensive dry eye diagnostic process. The above features will allow you to

Corneal Topography System Toronto | University Eye Clinic

Corneal Topography / Wavefront Analyzer (NIDEK OPD III) OPD - Scan III
Comprehensive Vision Analysis and Assessment Wavefront Aberrometer: Wavefront aberrometry gives unprecedented

Transparent Eye Layer: Understanding the Structure

□□ ****TL;DR: What Is a Transparent Eye Layer?*** A ****transparent eye layer**** refers to the ****corneal and scleral layers**** of the human eye that allow light to pass through while maintaining structural

CORNEA550 Corneal Topographer

CORNEA550 Corneal Topographer Specially designed for precise diagnosis and effortless dry eye assessment and contact lens fitting

Cornea 550 +

It combines multiple diagnostic modalities into one device, streamlining the assessment of corneal surface conditions, contact lens fitting, and dry eye

OCULUS Keratograph® 5M Advanced Corneal

OCULUS Keratograph® 5M is an advanced corneal topographer offering non-invasive dry eye analysis, precise corneal mapping, and efficient contact lens

Pathfinder Corneal Topographer | Eyefficient

With versatile clinical applications, including dry eye analysis, corneal morphology diagnosis, aberration simulation, and lens fitting, the Pathfinder is an

New Device Combines Several Dry Eye Diagnostics in One

Topcon's latest imaging tool, called Tera, can help practices detect, grade and manage ocular surface disease, the company says. Clinicians who

CORNEA 550 Corneal Surface Analyzer from Essilor

CORNEA 550 Corneal Surface Analyzer from Essilor Instruments USA Specially designed for dry eye assessment and contact lens fitting High-resolution color

Keratograph® 5M

OCULUS Keratograph® 5M is an advanced corneal topographer with a built-in real keratometer and a color camera optimized for external imaging.

Keratograph 5M

It provides you with useful hints and optimized, predefined settings to support you in your measurements, enabling you to perform a quick and efficient analysis for dry

Pathfinder Corneal Topographer | Eyefficient

Pathfinder Corneal Topographer 2 in 1 Ocular Diagnostic Master The Pathfinder is an advanced multi-purpose corneal topographer designed to streamline dry eye

5872 TERA Dry Eye Image Brochure_A4_210x297

VERSATILE IMAGING FOR ANY PRACTICE SETTING The TERA Dry Eye Imager is a full Placido based corneal topographer designed for the comprehensive assessment of corneal properties and

Dry Eye Analyser

Trader - Wholesaler / Distributor of Dry Eye Analyser - Corneal Topography Machine offered by Lab Medica Systems Private Limited, Ahmedabad, Gujarat.

Keratograph® 5M

Find out the cause of dry eye disease quickly and reliably with the assistance of the new Crystal TEAR Report in the Keratograph® 5M. Carry out a comprehensive analysis using the
