

Dual-core fiber optic 86 panel

Overview

Our 86 Type Socket Patch Panels are engineered with precision molds and injection technology to ensure reliability, consistent quality, and seamless module integration. Ideal for smart buildings and standardized cabling projects worldwide. NG4access[®] Cabled Modules available in all module sizes and fiber counts up to 864 fibers NG4access[®] Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration. In the bottom of the box body is provided with 6 convex for disc fiber, cable or cable tray storage of excess. The panel is designed with rounded corners, and the optical fiber adapter and panel are installed at 45 degrees. Combination structure, front and back double panel design, beautiful appearance, avoid exposed fixing screw holes. Easy Installation: The panel features a compact size of 86x86x24mm, making it simple to. The indoor 86mm type FTTH mini fiber optic faceplate employs a compact plug-in design, combines a modern design concept, adopts imported plastic, is of a graceful appearance and applicable for FTTH, FTTO and FTTD, etc., and allows easy use in different installation environments. The clasp design of. Fiber optic distribution box applied to FTTH that links in the access of the terminal system, especially suitable for the outdoor wall hanging or hoop type. * Design of double layer structure, the upper layer is the optical splitter wiring layer, the lower layer is the fiber fusion layer.
