

EU Lighting Distribution Box Model List

Overview

The European Product Registry for Energy Labelling (EPREL) offers detailed information on models placed on the EU market by scanning the QR code featured on the new energy labels. The various Ecodesign studies distinguish many different lamp types, but EIA summarises their data in the six main groups explained below (LED, HID, LFL, CFL, HL (tungsten) and GLS). Source: estimations from the Ecodesign Impact Accounting Overview Report 2024 Light emission derives from electrons. Blue Sea Lighting provides premium power distribution systems tailored for the European market. Designed to comply with EU electrical standards, our CE-certified products are ideal for concerts, live events, and industrial environments. Surface enclosures with a capacity of 4, 6, 8, 12, 18, 24, 36 and 54 modules with transparent window. Halogen-free plastic materials. Base and frame: ABS RAL 7035 grey. Transparent window: PC tinted window, with UV protection. SMART DISTRIBUTION BOXES FOR FLEXIBLE BUILDINGS. Wieland is your. The ABB MNS® low voltage distribution board and power cabinet are a new set of modular and multipurpose low-voltage products. As a member of the ABB MNS family, this particular product is widely used in the lower-level power distribution facilities with MNS® low-voltage switchgear in the following. Using the types of distributor described in the equipment standards, it is possible to set up a power supply solution from the feed-in point from the public grid all the way to the consumer connection tailored to all site requirements.
