

Fiber Optic Router Account Settings

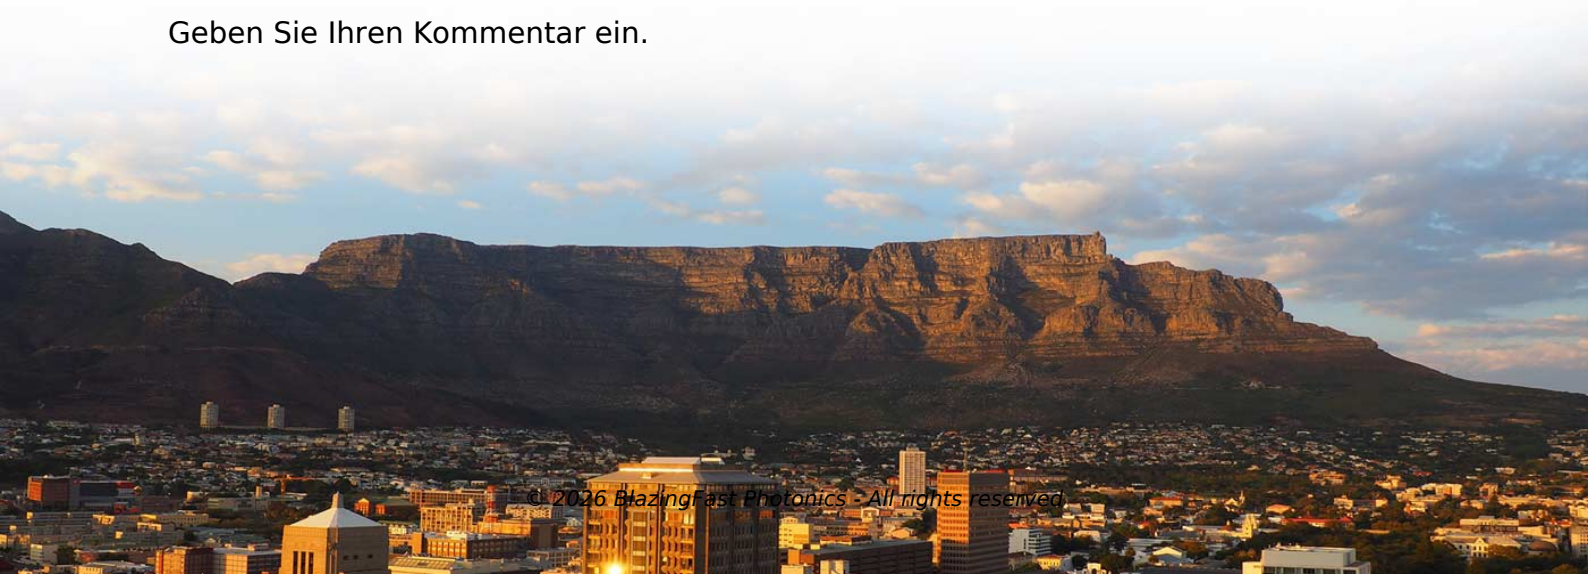

Overview

To set up your router for fiber internet quickly, connect the router to your fiber modem, access the router's settings via a web browser, and input the provided ISP credentials. If your line is from the Deutsche Telekom, use the guide Setting up the FRITZ!Box. I need information on what settings I need to configure on my router to access Internet via fiber optic modem. As far as I understand, I need a PPPoE username and password to connect. I never received it from Telekom, as well as Access number (Zugangsnummer). However, with a little knowledge and following the appropriate steps, it's possible to configure your router to take full advantage of the speed and stability of your. If you use the FRITZ!Box with a fiber optic modem, you can also use it on a fiber optic connection (Fiber to the Home, FTTH). Since the FRITZ!Box establishes and controls its own internet connection, all FRITZ!Box functions (such as such as the firewall, parental controls, MyFRITZ!) are also. My router is capable of PPPOE as well as other connection options and I wonder how do I get the details to set it up?

Can you tell us the name of the manufacturer and the typename or partno. of the router?
