

How much does a headlight pulse high beam module cost

Overview

The headlight module for a 2022 Subaru Forester costs between \$600 and \$900; a 2021 Hyundai Santa Fe Limited, \$675; a 2020 Toyota Corolla, \$900; a 2019 Cadillac XT5, \$1,350; a 2018 Volvo XC90, \$2,800. For many models, OEM headlamp modules run several hundred dollars or more per side. I've been out of the shop for about five years now. And. Headlights Burned Out: What's the Cost to Replace?

Replacement costs range from \$10 to \$40 for halogen bulbs to thousands for sealed LED or laser assemblies, with labor adding more. The type depends on the vehicle and trim: Halogens are cheap but short-lived, HID's are brighter but costly, and LEDs. When you do, the average cost of headlight assembly replacement is \$250-\$1,000. The rest is labor, because removing a headlight assembly can take up to 5 hours. The table below shows a. Using \$100 per hour as labor rate, some estimates of the headlight replacement costs for some common vehicles are presented below: Standard halogen is used for the high beams, but the low beam bulb came as either halogen or an HID option. The labor time to replace any bulb is estimated at 0. See if you qualify at checkout.
