

How much does a standard Class I electrical distribution box cost

Overview

New panel box pricing typically ranges from about \$150 to \$1,900 for parts and labor, with most residential projects landing between \$450 and \$1,500 depending on amp rating, gauge of wiring, and labor complexity. Understanding distribution box cost involves examining the comprehensive investment required for electrical distribution systems that serve as crucial infrastructure components in residential, commercial, and industrial settings. Think of them as traffic controllers for power—they direct energy where it needs to go while protecting against overloads or. When you start looking for a distribution box, you'll quickly realize the price range is wider than a highway. You might find a small plastic unit for the price of a fancy dinner, or an industrial-grade stainless steel beast that costs as much as a compact car. This article breaks down typical price ranges and driving factors to help homeowners and contractors budget effectively. Boxes with added features like. For a standard residential installation, basic boxes for outlets or switches often run from roughly \$0.
