

## How much does it cost to install a meter of U-shaped steel cable tray

### Overview

Steel trays typically cost between \$5 to \$25 per meter. They are strong, durable, and widely available, making them ideal for general-purpose electrical installations in residential, commercial, and industrial settings. Cable tray installation cost per meter varies by specifications; GangLong Fiberglass offers kits for raised floor system and facility needs. Small beams (100-127mm) cost £40-£50 per metre, medium beams (152-178mm) cost £55-£70 per metre, whilst larger beams (203mm+) range from £75 to £140 per metre. One result is Costing Steelwork, a regular series from Aecom, BCSA and Steel for. The average cable tray price per meter ranges from \$2 to \$25, depending on material, type, size, and surface finish. The main cost driver is the material used in manufacturing: Galvanized steel is the most common. Material Costs: The cost of steel is arguably the most significant factor affecting the steel building price. Actual costs may vary based on local suppliers, market conditions.
