

How to display cable tray bends in Huijue

Overview

To make the choice of elbows or bends, right-click the cardinal direction handles to display the Model Editor menu. Select Component Choice > Use Bends. So then, why when everything else being equal, do the cable tray without fittings type land in my cable tray run schedule, but. The mouse is used to define the direction of the cable route, bends are automatically inserted when the route changes direction. Bad alignment between two components, where the leave direction and arrive direction of adjacent elements do not match, (this can be due to the current design tolerance. You can buy a manufactured 90 degree bend or make one on a cable tray bending machine but in this video I show you how to make one using a metal bar. The Ladder Tray features light, rugged, tubular steel construction. It is designed for. Manufacturer offers factory bends 30 degrees to 90.
