

Indoor Optical Cable Installation Marker

Overview

Fiber optic cable tags are essential tools for identifying and organizing fiber optic cables in outdoor and indoor environments. Proper installation of indoor optical cables not only ensures stable signal transmission but also extends the cable's lifespan and avoids unnecessary faults. As a professional manufacturer of network cables and optical fibers, ZORA (www.zora.com) is committed to providing high-quality fiber optic. The Multilink cable markers utilize a simple and quick installation that allows the installer to simply wrap the marker around the selected cable without the need for special tools or adhesives. The UV stabilized body will not degrade in outside applications and a variety of colors allows easy. One of our most durable and versatile cable markers. These markers are made useable in a wide temperature range (-40°F to 250°F). Holes are designed for zip tie.
