

## Israel Flame-Retardant Optical Fiber Cable

### Overview

Available in both multimode (OM3/OM4) and singlemode (OS2) variants, they support configurations from 4 to 24 cores in a durable central loose tube design. Meeting stringent international standards, these cables are tested for both fire resistance (IEC 60331-25) and flame. ETK Kablo 's fire-resistant fiber optic cables ensure continuous data transmission during fire conditions, safeguarding critical communication lines when reliability is most crucial. Certified to B2ca CPR and FE180 fire-resistance standards, these cables maintain optical integrity under extreme. onal during fire. The cable has a design that ensures operation for more than 3 hours in fi es up to 1000 °C. Fire resistant Fiber Optic cable. Products approved by this certificate are accepted for installation on all vessels classed by DNV. Sensing & Monitoring Solutions based in Optical Fibre We have product quality certificates UL.
