

Japanese Fiber Optic Communication Device Manufacturer

Overview

Some of the major optical communication companies in Japan include Fujitsu, NEC, Sumitomo Electric Industries, Furukawa Electric, and NTT Communications. In this article, we explore six leading Japanese fiber optic cable manufacturers, highlighting their profiles, key products, and. They are a world-class manufacturer of fiber optics, connectors, and telecom infrastructure systems. With their experience and impressive reputation, there's no wonder why they are at the top of this list. Best uses: Data. Seikoh Giken commenced the development of optical fiber connection components in the 1980s, before communication through “optics” became widespread. Utilizing the sophisticated polishing technologies fostered through precision metal machining, we have been providing high quality optical connection. As a comprehensive manufacturer of devices and components for optical telecommunications, Furukawa Electric offers a wide range of products that support optical fiber networks. We are a provider of high-speed network construction solutions for the 400G era. We're excited to offer a range of.
