

## Miniature Optical Cable Ruler

### Overview

Optical power (OPM) and data cable tester in a compact, sturdy, ergonomic and low power consumption format. It is used to verify the quality of FTTx optical networks, mainly for FTTH (Fiber To The Home), and data networks. Test the luminescence power or light attenuation of optical transceiver/receiver/module (used separately) Test whether the link between different devices is smooth or not Small and beautiful, easy to carry, Measure whenever you want. Automatically judging whether the crimping of the registered jack. Linear Scale with Digital Display, KA-500 0.001mm 70 120 170 220 270 320 370 420mm Slim Linear Scale KA500 1µm Optical Encoder Ruler for Grinding Machine Milling for Milling and Lathe Prices for items sold by Amazon include VAT. Depending on your delivery address, VAT may vary at Checkout. Test, Troubleshoot and Certify cabling faster with the FiberMASTER OTDR. The FiberMASTER OTDR is available in 4 options, Quad, multimode, single-mode and PON. The OTDRs feature both high dynamic range and small dead zones providing. For both applications, SIKORA offers measuring and control devices that provide the highest precision in the drawing tower as well as in cable production lines - material and costs saving included. What is your area of expertise?

What do you want to measure and control?

Display device for.
