

## Morocco Data Center Solutions Ranking

### Overview

Rabat, Morocco – Morocco has climbed to fifth place in Africa for the number of active data centers, according to a report by Heirs Technologies. With eight operational data centers, the country shows a growing digital capacity driven by targeted investments and expanding. From South Africa's established colocation giants to Nigeria's bold pioneers and pan-African specialists, these Top 10 Data Centres in Africa are critical pillars sustaining millions of connected lives and businesses across the continent's emerging digital economy. The North African kingdom has adapted quickly to the digital age. In 2020, the Agency for Digital Development published a roadmap listing digital infrastructure as a priority. This is evident from a report by the Competition Council, which is cited by the Moroccan weekly La Vie Eco. Get Quotes and find Specs, Photos, Videos etc.
