

Southern European complete electrical distribution box consultation and quotation

Overview

Request your personalized quote now via request a group box quotation or get immediate emergency assistance thanks to our 24/7 on-call service. Want your new distribution box installed safely, smartly, and professionally right away?

Want quick clarity on the cost of buying and installing a distribution board?

Our quotes are free, always delivered to your inbox within 24 hours, 100% transparent, and with no surprises. From power and signal distribution to I&C applications and complete room. The Commission presented the European Grids Package (COM/2025/1005) on 10 December 2025, following the EU Action Plan for Grids adopted in November 2023. It consists of a proposal to revise the TEN-E Regulation and a proposal to accelerate permit granting procedures by amending the Renewable Energy. BES Group is an experienced partner for any power client, from public and private power utilities, national governments, aid agencies, industrial companies and hospitals. Whatever your requirement for electricity, wherever you are in the world, BES Group have the expertise to assist. Adding to this, the EU decarbonisation targets entail massive changes for electricity distribution grids: a tremendous amount of clean and renewable electricity. SIA ELDI manufacturing workshops provide the flexibility of the technical solutions, as well as maximum quality in the development of individual solutions of distribution boxes and complex systems. If necessary, we provide the customer with the justification and transparency of costs.
