

T-type bracket for cable trays

Overview

These wall brackets are T-shaped, perfect to secure & position cable wire mesh trays for cable and wire management. Available for 4", 6", 8", 12" width mesh. The cable support lengths and fittings can basically be designed as cable trays, cable ladders or mesh cable trays, in which cables are routed. Fittings can, on the one hand, be used for horizontal or vertical changing of the routing direction or, on the other, to change the height or width of the. Cable trays are components used in the wiring of buildings to support insulated cables and organise them to be hidden from view. They offer an alternative to open wiring or electrical conduit systems and are necessary for cable management in commercial and industrial construction, as well as. The wall-mounted bracket features an integrated coupler for quick and easy installation, enhancing overall work efficiency. Corrosion-resistant galvanized coating protects against bad weather, moisture, and rust - ensures a long service life even in harsh environments.
