

Te distribution box

Overview

TE Connectivity (TE) has developed a complete modular hard wired box family called MFINITY. The MFINITY Fuse and Relay Box offer limitless combinations with various modules, easily assembled into a complete power distribution panel, without any tooling cost. The increasing number of functions in vehicles require a more reliable, multi-purpose and flexible power network and we offer standard and. TE Connectivity's (TE) Entrelec DBL Power Distribution Blocks offer a compact and modular design with three configuration options. Designers can configure TE's Entrelec DBL Power Distribution Boxes as single- or multi-pole splitters or group several inputs into one output. Box products are used to contain or enclose materials or equipment in a variety of contexts; plastic or metallic boxes suitable for constructing enclosures for electronic equipment such as guitar pedals, equipment cases for transporting tools or equipment, console style enclosures convenient for. DFW-12 outdoor cable distribution box is used for accepting and distributing electric energy in 10kV cable ring network power supply or terminal power supply system. It is divided into non-switch and cable distribution box with switch, in which the switch distribution box is divided into load. TE Platform TE-ODB-4 optical distribution box is used as a termination point for the feeder cable to connect with drop cable in FTTx communication network system. The fiber splicing, splitting, distribution can be done in this box, and meanwhile it provides solid protection and management for the.
