

UK Sales of Optical Cables

Overview

Market Size & Forecast: The UK optic cable market is projected to reach approximately £1.2 billion by 2028, growing at a CAGR of 8% from 2023–2028, driven by escalating demand for high-speed connectivity. The United Kingdom Fiber Cable Market was valued at more than USD 2. Initially, the exponential growth of digital technologies, including cloud computing, Internet of Things (IoT), and streaming. The Government has accepted the TRA's recommendations to impose anti-dumping and countervailing measures on imports of optical fibre cables from China. The Government has today (23 October) imposed new measures to protect the UK's growing optical fibre cables industry from unfair trading practices. Optical Fiber Cable is a type of wire and cable used in telecommunications and data transmission. It is composed of a core of glass or plastic fibers surrounded by a protective coating. The core is made of a material that can transmit light, while the coating is designed to protect the core from. 6Wresearch actively monitors the United Kingdom (UK) Fibre Optic Cables Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook. The UK optical fiber cables market experienced a significant contraction in consumption and imports in 2024 after a period of strong growth, although production.
