

Waterproof sealing cover for distribution box

Overview

In order to improve the waterproof performance of industrial power distribution box, manufacturers will apply a layer of special waterproof coating on the surface of the box. This coating has good adhesion and weather resistance, and can effectively resist erosion by. (1) Waterproof distribution box engineered for harsh outdoor and industrial environments, providing IP65-IP68 sealing against dust, rain, and UV. (3). Material: The shell is made of ABS plastic, the cover is made of transparent PC, the sealing ring is made of silicon rubber, and the guide rail is made of tin plate. Found a lower price?

Let us know. However, many may not realize that whether this armor can truly block heavy rain or water vapor depends entirely on that seemingly insignificant sealing. The groove contours of electronic distribution boxes and the very narrow grooves of micro-distribution housings are seamlessly sealed with the sealing foams of the polyurethane-based FERMAPOR K31 or the silicone-based FERMAPOR product families.
