

What is a xqj-t type cable tray

Overview

The XQJ-T ladder-type cable tray boasts advantages such as light weight, low cost, unique design, easy installation, good heat dissipation, and breathability. Hot-dip galvanized models: excellent corrosion resistance, impact strength, load-bearing; suitable for indoor/outdoor use. Press-formed for efficiency, easy. XQJ series cable trays are suitable for laying of power cables with voltage below 12KV, control cables, lighting wiring, etc. indoor and outdoor overhead cable trenches and tunnels. The ladder type cable tray has good ventilation. The cable tray (cable bracket) is the full name of the rigid structural system that consists of a straight section of a tray or a ladder frame, a bend, a component, a support arm, a hanger, and the like. Cable bridges, trunkings and their hangers are to be used in corrosive environments. It has large space and perfect ventilation property.
