

Where is the JT300C optical power meter manufactured

Overview

Their products are manufactured in North America, Europe, and Asia. Physik Instrumente is ITAR registered. And its manufacturing and other facilities are located in New England. This type of contour projector is a precise and efficient optical measuring instrument integrating light, electricity and machine. It is widely used in machinery, instrumentation, electronics, cables, rubber, plastic packaging, bearings and other industries, as well as research laboratories. Here are the top-ranked optical power meter companies as of May, 2026: 1. It is used to get. VIAVI offers fast, cost-effective, and easy-to-use power meters for installation and maintenance of single mode and multimode fiber optic networks and advanced, photonic-layer power meters for lab and production environments.
