

Which company specializes in Indian micro-modules

Overview

com is a brand owned and operated by SilTech Industries, a growing Indian company known for its expertise in embedded electronics. Founded in 2021 by Shashwath TR and Sharan Srinivas Jagathrakshakan, the company has. Applied Materials, which specializes in materials engineering solutions for semiconductors, operates five India offices. Quick Summary: India's leading semiconductor manufacturing companies excel in chip design, fabrication, and testing, offering advanced technology, high-quality production, innovation, and reliability, driving the growth of electronics, IT hardware, and semiconductor industries across the country. Blueberry Semiconductors Private Limited specializes. Morphing Machines is a Fabless Semiconductor company Meet Deepak, S K and Ranjani that work here Founded in 2005 with the vision of building a runtime reconfigurable, future-proof processor, Morphing Machines is a fabless semiconductor startup incubated out of Indian Institute of Science (IISc). AMD, NXP, Applied Materials, Arm: These companies support various semiconductor segments including automotive electronics, industrial control, low-power processors, and materials engineering, often through Indian design centers. Tata Electronics: Leading the charge on India's first commercial.

Article Content

Solar PV Module Manufacturers in India 2024 |Om Solar

Find the top 10 solar PV module manufacturers in India for 2024, with top brands, pricing, ROI, and how solar installation company may help you use

Top 20 semiconductor companies in india 2026

Founded by researchers from the Indian Institute of Science (IISc), the company focuses on developing high-performance GaN wafers, devices and

Meet 23 Semiconductor Startups Powering India's

At a time when India's semiconductor ecosystem is gaining substantial momentum, we compiled a list of leading companies that will be

India Semiconductor Market Size, Share & Trends | Report 2034

India Semiconductor Market size reached USD 59.78 Billion in 2025 and projected to reach USD 180.20 Billion at a CAGR of 11.95% by 2034.

Top 10 Solar Panel Manufacturers in India (2026)

As part of this movement, several Indian solar manufacturers have made significant contributions by producing world-class solar modules, cells, and other equipment. These companies

Micropack Pvt Ltd

Micropack is one of the leading manufacturer in India for professional grade PCBs. Established in 1984, we provide solutions to your PCB requirements with a

IIT-Madras startup Mindgrove launches first India-made

IIT Madras-incubated startup Mindgrove Technologies has launched Secure IoT, the first indigenous microcontroller chip, which is 30% cheaper than

Space Micro Devices — Electronic Component Distributor India

Space Micro Devices is an authorised distributor of electronic components in India — supplying genuine MLCCs, MOVs, MOSFETs, IGBTs, capacitors, resistors, and IoT modules from 40+ global

onyxindia - Onyx Components and Systems

The company specializes in the design and production of power semiconductor chips and intelligent power modules, playing a crucial role in strengthening both the

Top 10 Leading Semiconductor Manufacturing

Here's a list of the top 10 semiconductor manufacturing companies in India. Learn more about these startup companies & how they are winning the

Top 10 Semiconductor Companies in India (2026)

In this blog, I will introduce you to the top 10 semiconductor companies in India, explain their performance in the semiconductor manufacturing industry, and explain how Indian semiconductor

12 semiconductor plants approved: Where India's chip manufacturing ...

News Explained Explained Economics 12 semiconductor plants approved: Where India's chip manufacturing mission stands, what's next 12 semiconductor plants approved: Where India's

23 Top Semiconductor Companies in India | Built In

India is home to many of the world's foremost designers of

Top Semiconductor Startups In India

Discover the top semiconductor startups in India that are shaping the future of the tech industry. Learn about innovative companies driving growth and

Top India Semiconductor Companies | 2026 Industry

Explore the rise of semiconductor manufacturing in India. Discover key companies making India a global chipmaking hub in 2026.

Top 10 Solar Inverter Manufacturers in India

Explore the list of the top 10 solar inverter manufacturers in India. It will help you make an informed decision when choosing right solar power for your

India Semiconductor Market Size, Growth & Outlook

India Semiconductor Market Size & Share Analysis - Growth Trends and Forecast (2026 - 2031) The India Semiconductor Market Report is

Top 10 Semiconductor Manufacturing Companies in India

Discover all relevant Semiconductor Companies in India, including SmartSoC Solutions Pvt Ltd and Blueberry Semiconductors Pvt. Ltd.

India's Top Ten Solar Module Manufacturers

As per AISMA, India's manufacturing capacity has crossed 60 GW. Top 10 Solar Module Manufacturers in India Based on AISMA 2023.

India's Silicon Surge: 10 Companies Leading the Chip Charge

India emerges as a chipmaking hub in 2025, meet 10 companies leading its semiconductor surge through innovation and global partnerships.

Leading Electronics Manufacturer | electromodules

We specialize in essential modules for embedded systems, including USB programmers, I/O boards, serial communication tools, and other development accessories—designed, developed, and tested

Ecosystem Directory

The company offers custom RFIC/MMIC solutions spanning DC to 50 GHz, along with transceiver architecture design, RF module development, and comprehensive RF testing services, actively

Top 10 Solar PV Module Manufacturers in India | Kompas

Looking for solar PV module manufacturers in India? Browse 10 top suppliers on Kompas, review company profiles and product ranges, and contact

Top 23 Semiconductor Companies Driving India's Chip Industry in 2025

Explore the leading 23 semiconductor companies in India shaping the booming chip manufacturing and design sector in 2025 with strong government and private investments.

Top 10 semiconductor companies in India

“Discover the leading Top 10 semiconductor companies in India making waves in India's tech industry. From Intel's cutting-edge processors to Qualcomm's advancements in mobile

16 Top Semiconductor Manufacturing Companies in

Detailed info and reviews on 16 top Semiconductor Manufacturing companies and startups in India in 2026. Get the latest updates on their products,

Photovoltaic Manufacturing Outlook in India

Executive Summary India has made substantial progress in domestic solar module manufacturing capacity in recent years. However, stronger impetus is needed in this regard to achieve 300
